VOLUME 1
TITLE INDEX

Behavioral indicies of multisensory integration: Orientation to visual cues is affected by auditory stimuli. Stein, Barry E., Meredith, M. Alex, Huneycutt, W. Scott, & McDade, Lawrence. (1989). *JOCN 1*(1), 12–24.

Brain activity underlying mental imagery: Event-related potentials during mental image generation. Farah, Martha J., Peronnet, Franck, Weisberg, Lauren L., & Monheit, Mark A. (1989). *JOCN 1*(4), 302–316.

Brainprints: Computer-generated two-dimensional maps of the human cerebral cortex in vivo. Jouandet, Marc L., Tramo, Mark Jude, Herron, Daniel L., Hermann, Allison, Loftus, William C., Bazell, Josh, & Gazzaniga, Michael S. (1989). *JOCN 1*(1), 88–117.

Comparisons between active properties of distal dendritic branches and spines: Implications for neuronal computations. Shepherd, Gordon M., Woolf, Thomas B., & Carnevale, Nicholas T. (1989). *JOCN 1*(3), 273–286.

Derivation of encoding characteristics of layer II cerebral cortex. Granger, Richard, Ambros-Ingerson, Jose, & Lynch, Gary. (1989). *JOCN 1*(1), 61–87.

Does scopolamine directly impair memory? Grober, Ellen, Leipzig, Rosanne M., Lipton, Richard B., Wisniewski, Wendy, Schroeder, Mary, Davies, Peter, Ritter, Walter, & Buschke, Herman. (1989). *JOCN 1*(4), 327–335.

Dream bizarreness as the cognitive correlate of altered neuronal behavior in REM sleep. Mamelak, Adam M., & Hogson, J. Allan. (1989). *JOCN 1*(3), 201–222.

The effects of focal brain damage on sentence processing: An examination of the neurological organization of a mental module. Swinney, David, Zurif, Edgar, & Nicol, Janet. (1989). *JOCN 1*(1), 25–37.

An electrophysiological probe of incidental semantic association. Kutas, Marta, & Hillyard, Steven A. (1989). *JOCN 1*(1), 28–49.

Inability of subcortical emotional memories. Le Doux, Joseph E., Romanski, Lizabeth, & Xagoraris, Andrew. (1989). *JOCN 1*(3), 238–243.

Is word recognition automatic? A cognitive-anatomical approach. Posner, Michael I., Sandson, Jennifer, Dhawan, Meena, & Shulman, Gordon L. (1989). *JOCN 1*(1), 50–60.

Microstimulation of a neural-network model of visually guided saccades. Goodman, Sabrina J., & Andersen, Richard A. (1989). *JOCN 1*(4), 317–326.

Neural processes involved in directing attention. Harter, M. Russell, Miller, Steven L., Price, Natalie J., Lalonde, Margaret E., & Keyes, Alvin L. (1989). *JOCN 1*(3), 223–237.

The origins of neocortex: Connections and lamination as distinct events in evolution. Karten, Harvey J., & Shimitzu, Toru. (1989). *JOCN 1*(4), 291–301.

Positron emission tomographic studies of the processing of single words. Petersen, Steven E., Fox, Peter T., Posner, Michael I., Mintun, Mark, & Raichle, Marcus E. (1989). *JOCN 1*(2), 153–170.

The recognition of antonymy by a language-enriched right hemisphere. Gazzaniga, Michael S., & Miller, George A. (1989). *JOCN 1*(2), 187–193.

Regulation of synaptic molecular architecture in a rat sympathetic ganglion and hippocampus. Wu, K., & Black, I. B. (1989). *JOCN 1*(2), 194–200.

Review of J. Anderson and E. Rosenfeld (Eds.), "Neurocomputing: Foundations of Research." Reynolds, David V. (1989). *JOCN 1*(3), 287–289.

Review of P. Johnson-Laird, "The Computer and the Mind." Reynolds, David V. (1989). *JOCN 1*(3), 287–289.

Review of S. Graubard (Ed.), "The Artificial Intelligence Debate: False Starts, Real Foundations." Reynolds, David V. (1989). *JOCN 1*(3), 287–289.

A simple model of prefrontal cortex function in delayed-response tasks. Dehaene, Stanislas, & Changeux, Jean-Pierre. (1989). *JOCN 1*(1), 244–261.

A source analysis of human auditory evoked potentials. Scherg, Michael, Vaisar, Jiri, & Picton, Terence W. (1989). *JOCN 1*(4), 336–355.

Static and dynamic aspects of cortical somatotopy: A critical evaluation. Killackey, Herbert P. (1989). *JOCN 1*(1), 3–11.

Temporal constraints on language processing: Syntactic priming in Broca's aphasia. Friederici, Angela D., & Kilborn, Kerry. (1989). *JOCN 1*(3), 262–272.

The temporal dynamics of event memory: A stage analysis of mnemonic processing in man and macaque. Lewine, Jeffrey David. (1989). *JOCN 1*(4), 356–371.

Timing functions of the cerebellum. Ivry, Richard B., & Keele, Steven W. (1989). *JOCN 1*(2), 136–152.

Visual search performance in the neglect syndrome. Eglin, Mirjam, Robertson, Lynn C., & Knight, Robert T. (1989). *JOCN 1*(4), 372–385.

Why are "what" and "where" processed by separate cortical visual systems? A computational investigation. Rueckl, Jay G., Cave, Kyle R., & Kosslyn, Stephen M. (1989). *JOCN 1*(2), 171–186.

Why does the brain have so many visual areas? Kaas, Jon H. (1989). *JOCN 1*(2), 121–135.

Zurif, Edgar. The effects of focal brain damage on sentence processing: An examination of the neurological organization of a mental module. Swinney, David, Zurif, Edgar, & Nicol, Janet. (1989). *JOCN 1*(1), 25–37.

VOLUME 2
TITLE INDEX

Amnesia due to lesions confined to the hippocampus: A clinical-pathologic study. Victor, Maurice, & Agamanolis, Dimitri. (1990). *JOCN 2*(3), 246–257.

Anterior frontal cortex and the effect of proactive interference in paired associate learning: A DC potential study. Uhl, F., Franzen, P., Serles, W., Lang, W., Lindinger, G., & Deecke, L. (1990). *JOCN 2*(4), 373–382.

The bounded brain: Toward quantitative neuroanatomy. Cherniak, Chrisopher. (1990). *JOCN 2*(1), 58–68.

The cerebellum and motor learning. Glickstein, Mitchell, & Yeo, Christopher. (1990). *JOCN 2*(2), 69–80.

Cortical maturation and the development of visual attention in early infancy. Johnson, Mark H. (1990). *JOCN 2*(2), 81–95.

Effects of ibotenic lesions of mammilary bodies on spontaneous and rewarded spatial alteration in mice. Beracochea, Daniel J., & Jaffard, Robert. (1990). *JOCN 2*(2), 133–140.

Enhancement of metabolic activity in the diencephalon of monkeys performing working memory tasks: A 2-deoxyglucose study in behaving rhesus monkeys. Friedman, Harriet R., Janas, Janice D., & Goldman-Rakic, Patricia S. (1990). *JOCN 2*(1), 18–31.

Event-related potentials to infrequent changes in synthesized phonetic stimuli. Sams, Mikko, Aulanko, Reijo, Aaltonen, Olli, & Näätänen, Risto. (1990). *JOCN 2*(4), 344–357.

Genetics and epigenetics of neural function: A model. Kerszberg, Michel. (1990). *JOCN 2*(1), 51–57.

Global versus local processing in the absence of low spatial frequencies. Hughes, H. C., Fendrich, R., & Reuter-Lorenz, P. A. (1990). *JOCN 2*(3), 272–282.

Hemispheric mechanisms controlling voluntary and spontaneous facial expressions. Gazzaniga, Michael S., & Smylie, Charlotte S. (1990). *JOCN 2*(3), 239–245.

Language and reading in the right hemisphere: Highways or byways of the brain? Baynes, Kathleen. (1990). *JOCN 2*(3), 159–179.

Late positive event-related potentials after commissural section in humans. Kutas, Marta, Hillyard, Steven A., Volpe, Bruce T., & Gazzaniga, Michael S. (1990). *JOCN 2*(3), 258–271.

Learning without memory. Garcia, John. (1990). *JOCN 2*(4), 287–305.

Modulation of spontaneous brain activity during mental imagery. Kaufman, L., Schwartz, B., Salustri, C., & Williamson, S. J. (1990). *JOCN 2*(2), 124–132.

Music perception and cognition following bilateral lesions of auditory cortex. Tramo, Mark Jude, Bharucha, Jamshed J., & Muosek, Frank E. (1990). *JOCN 2*(3), 195–212.

Neocortical expansion: An attempt toward relating phylogeny and ontogeny. Killackey, Herbert P. (1990). *JOCN 2*(1), 1–17.

On the interaction of selective attention and lexical knowlege: A connectionist account of neglect dyslexia. Mozer, Michael C., & Behrmann, Marlene. (1990). *JOCN 2*(2), 96–123.

Orienting attention across the vertical meridian: Evidence from callostomy patients. Reuter-Lorenz, P. A., & Fendrich, R. (1990). *JOCN 2*(3), 232–238.

The perception of structure from visual motion in monkey and man. Siegel, R. M., & Andersen, R. A. (1990). *JOCN 2*(4), 306–319.

The pyramidal cell and its local-circuit interneurons: A hypothetical unit of the mammalian cerebral cortex. Marin-Padilla, Miguel. (1990). *JOCN 2*(3), 180–194.

Receptive field characteristics that allow parietal lobe neurons to encode spatial properties of visual input: A computational analysis. O'Reilly, Randall C., Kosslyn, Stephen M., Marsolik, Chad J., & Chabris, Christopher F. (1990). *JOCN 2*(2), 141–155.

Review of Albert Galaburda (Ed.), "From Reading to Neurons." Roberts, David W. (1990). *JOCN 2*(3), 283–285.

Review of Daniel N. Osherson (Ed.), "An Invitation to Cognitive Science." Morgan, James. (1990). *JOCN 2*(4), 394–396.

Review of Gerald M. Edelman, "The remembered present: A biological theory of consciousness." Bruer, John T. (1990). *JOCN 2*(4), 385–386.

Review of H. Damasio and A. R. Damasio, "Lesion Analysis in Neuropsychology." Tramo, Mark Jude. (1990). *JOCN 2*(2), 156–157.

Review of J. J. Kulikowski, C. M. Dickinson, and I. J. Murray (Eds.), "Seeing Contour and Colour." Stork, David G. (1990). *JOCN 2*(4), 383–384.

Review of M. Posner (Ed.), "Foundations of Cognitive Science." Chipman, Susan F. (1990). *JOCN 2*(4), 387–393.

Spatially distributed cortical excitation patterns of auditory processing during contralateral and ipsilateral stimulation. Rogers, Robert L., Papanicolaou, Andrew C., Baumann, Stephen B., Eisenberg, Howard M., & Saydjari, Christy. (1990). *JOCN 2*(1), 44–50.

Stimulating visual attention. Sandon, Peter A. (1990). *JOCN 2*(3), 213–231.

Thalamic and cortical mechanisms of attention suggested by recent positron emission tomographic experiments. LaBerge, David. (1990). *JOCN 2*(4), 358–372.

Transformation from head- to shoulder-centered representation of target direction in arm movements. Soechting, J. F., Tillery, S. I. H., & Flanders, M. (1990). *JOCN 2*(1), 32–43.

Visual object representation: Interpreting neurophysiological data within a computational framework. Plant, David C., & Farah, Martha J. (1990). *JOCN 2*(4), 320–343.

A connectionist model may shed light on neural mechanisms for visually guided reaching. Mel, Bartlett W. (1991). *JOCN 3*(3), 273–292.

"Dead reckoning," landmark learning, and sense of direction: A neuropsychological and computational hypothesis. McNaughton, B. L., Chen, L. L., & Markus, E. J. (1991). *JOCN 3*(2), 190–202.

Deficits in selective attention following bilateral anterior cingulotomy. Janer, Kevin W., & Pardo, Jose V. (1991). *JOCN 3*(3), 231–241.

Deformable templates for face recognition. Yuillie, Alan L. (1991). *JOCN 3*(1), 59–70.

The development of inhibition of return in early infancy. Boylan Clohessy, Anne, Posner, Michael I., Rothbart, Mary K., & Vecera, Shaun P. (1991). *JOCN 3*(4), 345–350.

Development of spontaneous alternation in infancy. Vecera, Shaun P., Rothbart, Mary K., & Posner, Michael I. (1991). *JOCN 3*(4), 351–354.

Differential sensitivity to errors of agreement and word order in Broca's aphasia. Wulfeck, Beverly, & Bates, Elizabeth. (1991). *JOCN 3*(3), 258–272.

Editor's note: Attention as a cognitive neurosystem. Posner, Michael I. (1991). *JOCN 3*(4), 303.

Eigenfaces for recognition. Turk, Matthew, & Pentland, Alex. (1991). *JOCN 3*(1), 71–86.

Extrageniculate contributions to reflex visual orienting in normal humans: A temporal hemifield advantage. Rafal, Robert, Henik, Avishi, & Smith, Jean. (1991). *JOCN 3*(4), 322–328.

Face-selective cells in the temporal cortex of monkeys. Desimone, Robert. (1991). *JOCN 3*(1), 1–8.

High precision systems require high precision "blueprints": A new view regarding the formation of connections in the mammalian visual system. Chalupa, Leo M., & Dreher, Bogdan. (1991). *JOCN 3*(3), 209–219.

Impaired velocity perception in patients with lesions of the cerebellum. Ivry, Richard B., & Diener, H. C. (1991). *JOCN 3*(4), 355–366.

Interview with Floyd E. Bloom. Gazzaniga, Michael S. (1991). *JOCN 3*(4), 385–388.

Interview with Endel Tulving. Gazzaniga, Michael S. (1991). *JOCN 3*(1), 89–94.

Lateralized control of eye movements in attention deficit hyperactivity disorder. Rothlind, Johannes C., Posner, Michael I., & Schaughency, Elizabeth A. (1991). *JOCN 3*(4), 377–381.

Parameterizing exemplars of categories. Mumford, David. (1991). *JOCN 3*(1), 87–88.

Preface (Special issue on face perception). Kosslyn, Stephen M., & Mumford, David. (1991). *JOCN 3*(1), ii.

Preserved priming of novel objects in patients with memory disorders. Schacter, Daniel L., Cooper, Lynn A., Tharan, Mindy, & Rubens, Alan B. (1991). *JOCN 3*(2), 117–130.

Review of C. R. Gallistel, "The Organization of Learning." Leaton, R. N. (1991). *JOCN 3*(4), 382–384.

Review of S. Ramon y Cajal (translated by N. Swanson and L. W. Swanson), "New Ideas on the Structure of the Nervous System in Man and Vertebrates." Glickstein, M. (1991). *JOCN 3*(2), 300–302.

Right hemisphere processing superiority during sustained visual attention. Whiteheal, Roger. (1991). *JOCN 3*(4), 329–334.

Role of anterior and posterior attention networks in hemispheric asymmetries during lexical decisions. Nakagawa, Atsuko. (1991). *JOCN 3*(4), 313–321.

Separable mechanisms in face processing: Evidence from hemispheric specialization. Hillger, Lynn A., & Koenig, Olivier. (1991). *JOCN 3*(1), 42–48.

Short-latency single unit processing in olfactory cortex. McCollum, John, Larson, John, Otto, Tim, Schottler, Frank, Granger, Richard, & Lynch, Gary. (1991). *JOCN 3*(3), 293–299.

Spatio-temporal cortical patterns evoked in monkeys by a discrimination task. Krieger, Don, Coppola, Richard, Sclabassi, Robert J., & Nakamura, Richard. (1991). *JOCN 3*(3), 242–251.

Syntactically based sentence processing classes: Evidence from event-related brain potentials. Neville, Helen, Nicol, Janet L., Barss, Andrew, Forster, Kenneth I., & Garrett, Merrill F. (1991). *JOCN 3*(2), 151–165.

Timing and force control deficits in clumsy children. Lundy-Ekman, Laurie, Ivry, Richard, Keele, Steven, & Woollacott, Marjorie. (1991). *JOCN 3*(4), 367–376.

Tractioning the word repetition effect with event-related potentials. Van Petten, Cyma, Kutas, Marta, Kluender, Robert, Mitchner, Mark, & McIsaac, Heather. (1991). *JOCN 3*(2), 131–150.

Visual experience specifically regulates synaptic molecules in rat visual cortex. Schoups, Aniek A., & Black, Ira B. (1991). *JOCN 3*(3), 252–257.

Visual processing of faces in the temporal cortex: Physiological evidence for a modular organization and possible anatomical correlates. Harries, M. H., & Perrett, D. I. (1991). *JOCN 3*(1), 9–24.

When metacognition fails: Impaired awareness of deficit in Alzheimer's disease. McGlynn, Susan M., & Kaszniak, Alfred W. (1991). *JOCN 3*(2), 183–189.

VOLUME 4
TITLE INDEX

Brain potentials during memory retrieval provide neurophysiological support for the distinction between conscious recollection and priming. Paller, Ken A., & Kutas, Marta. (1992). *JOCN 4*(4), 375–391.

Cognitive binding: A computational-modeling analysis of a distinction between implicit and explicit memory. Metcalfe, Janet, Cottrell, Garrison W., & Mencl, W. E. (1992). *JOCN 4*(3), 289–298.

Computational consequences of a bias toward short connections. Jacobs, Robert A., & Jordan, Michael I. (1992). *JOCN 4*(4), 323–336.

Configural and elemental associations and the memory coherence problem. Rudy, Jerry W., & Sutherland, Robert J. (1992). *JOCN 4*(3), 208–216.

Declarative and nondeclarative memory: Multiple brain systems supporting learning and memory. Squire, Larry R. (1992). *JOCN 4*(3), 232–243.

Direct and indirect cooperation between temporal and parietal networks for invarient visual recognition. Otto, Isabelle, Guigon, Emmanuel, Bouthkil, Latifa, Grandguillaume, Philippe, & Burnod, Yves. (1992). *JOCN 4*(1), 35–57.

Dissociation of object and spatial vision in human extrastriate cortex: Age-related changes in activation of regional cerebral blood flow measured with [^{15}O]water and positron emission tomography. Grady, Cheryl L., Haxby, James V., Horwitz, Barry, Ungerleider, Leslie G., Schapiro, Mark B., Carson, Richard E., Herscovitch, Peter, Mishkin, Mortimer, & Rapoport, Stanley I. (1992). *JOCN 4*(1), 23–34.

Effects of multiple stimuli on ocular orientation by cats. Kurylo, Daniel D., Pandey Vimal, Ram L., & Hartline, Peter H. (1992). *JOCN 4*(2), 165–174.

An event-related potential (ERP) analysis of semantic congruity and repetition effects in sentences. Besson, Mireille, Kutas, Marta, & Van Petten, Cyma. (1992). *JOCN 4*(2), 132–149.

Event-related potentials and recognition memory for low- and high-frequency words. Rugg, Michael D., & Doyle, Michael C. (1992). *JOCN 4*(1), 69–79.

Facilitation of working memory in humans by a D_2 dopamine receptor agonist. Luciana, Monica, Depue, Richard A., Arbisi, Paul, & Leon, Arthur. (1992). *JOCN 4*(1), 58–68.

Functional associations among human posterior extrastriate brain regions during object and spatial vision. Horwitz, Barry, Grady, Cheryl L., Haxby, James V., Ungerleider, Leslie G., Schapiro, Mark B., Mishkin, Mortimer, & Rapoport, Stanley I. (1992). *JOCN 4*(4), 311–322.

The hippocampal system and declarative memory in animals. Eichenbaum, Howard. (1992). *JOCN 4*(3), 217–231.

Human cerebral cortex: Localization, parcellation, and morphometry with magnetic resonance imaging. Rademacher, J., Galaburda, A. M., Kennedy, D. N., Filpek, P. A., Caviness, V. S., Jr. (1992). *JOCN 4*(4), 352–374.

Is cognitive neuropsychology plausible? The perils of sitting on a one-legged stool. Kosslyn, Stephen M., & Intriligator, James R. (1992). *JOCN 4*(1), 96–106.

Is cognitive neuropsychology possible? Caramazza, Alfonso. (1992). *JOCN 4*(1), 80–95.

MEM: Mechanisms of recollection. Johnson, Marcia K. (1992). *JOCN 4*(3), 268–280.

Memory and working-with-memory: A component process model based on modules and central systems. Moscovitch, Morris. (1992). *JOCN 4*(3), 257–267.

Mnemonic dissociations: The power of parameters. Olton, David S., & Shapiro, Matthew L. (1992). *JOCN 4*(2), 200–207.

Modes of lexical access in the callosotomized brain. Reuter-Lorenz, Patricia A., & Baynes, Kathleen. (1992). *JOCN 4*(2), 155–164.

Multiple memory systems: What and why. Nadel, Lynn. (1992). *JOCN 4*(3), 179–188.

N400 to semantically anomalous pictures and words. Nigam, Arti, Hoffman, James E., & Simons, Robert F. (1992). *JOCN 4*(1), 15–22.

A neurological framework for the representation of minds. Brothers, Leslie, & Ring, Brian. (1992). *JOCN 4*(2), 107–118.

Preserved visual imagery and categorization in a case of associative visual agnosia. Jankowiak, Janet, Kinsbourne, Marcel, Shalev, Ruth S., & Bachman, David L. (1992). *JOCN 4*(2), 119–131.

Priming and multiple memory systems: Perceptual mechanisms of implicit memory. Schacter, Daniel L. (1992). *JOCN 4*(3), 244–256.

The psychophysical attributes of heat-induced pain and their relationships to neural mechanisms. Price, Donald D., McHaffie, John G., & Stein, Barry E. (1992). *JOCN 4*(1), 1–14.

Review of S. A. Bayer & J. Altman, "Neocortical Development." Marin-Padilla, Miguel. (1992). *JOCN 4*(2), 175–176.

Review of S. E. Brauth, W. S. Hall, & R. J. Dooling (Eds.), "Plasticity of Development." Chalupa, Leo M. (1992). *JOCN 4*(2), 176–177.

Savings in relearning face-name association as evidence for "covert recognition" in prosopagnosia. Wallace, Marcie A., & Farah, Martha J. (1992). *JOCN 4*(2), 150–154.

Selective interference with the representation of size in the human by direct cortical electrical stimulation. Hart, John, Jr., Lesser, Ronald P., & Gordon, Barry. (1992). *JOCN 4*(4), 337–344.

Toward a noncomputational cognitive neuroscience. Globus, Gordon G. (1992). *JOCN 4*(4), 299–310.

Variations in synaptic plasticity and types of memory in corticohippocampal networks. Lynch, Gary, & Granger, Richard. (1992). *JOCN 4*(3), 189–199.

Visual processing without awareness: Evidence from unilateral neglect. Berti, Anna & Rizzolatti, Giacomo. (1992). *JOCN 4*(4), 345–351.

Working memory: The interface between memory and cognition. Baddeley, Alan. (1992). *JOCN 4*(3), 281–288.

VOLUME 5
TITLE INDEX

An assessment of the semantic network in patients with Alzheimer's disease. Chan, Agnes S., Butters, Nelson, Paulsen, Jane S., Salmon, David P., Swenson, Michael R., & Maloney, Laurence T. (1993). *JOCN* 5(2), 254–261.

Attention-related modulation of sensory-evoked brain activity in a visual search task. Luck, Steven J., Fan, Silu, & Hillyard, Steven A. (1993). *JOCN* 5(2), 188–195.

Book review on S. LeVay, "The Sexual Brain." Gorski, Roger A. (1993). *JOCN* 5(4), 499.

Bridging the gap: Evidence from ERP's on the processing of unbounded dependencies. Kluender, Robert, & Kutas, Marta. (1993). *JOCN* 5(2), 196–214.

Cognitive and physiological substrates of impaired sentence processing in Parkinson's disease. Grossman, Murray, Carvell, Susan, Gollomp, Stephen, Stern, Matthew B., Reivich, Martin, Morrison, Donald, Alavi, Abass, & Hurtig, Howard I. (1993). *JOCN* 5(4), 480–498.

Constraints on plasticity in a connectionist model of the English past tense. Marchman, Virginia A. (1993). *JOCN* 5(2), 215–234.

The cortical representation of speech. Mazoyer, B. M., Dehaene, S., Tzouio, N., Frak, V., Murayama, N., Cohen, L., Levrier, O., Salamon, G., Syrota, A., & Mehler, J. (1993). *JOCN* 5(4), 467–479.

The covert learning of affective valence does not require structures in hippocampal system of amygdala. Tranel, Daniel, & Damasio, Antonio. (1993). *JOCN* 5(1), 79–88.

Development of elementary numerical abilities: A neuronal model. Dehaene, Stanislas, & Changeux, Jean-Pierre. (1993). *JOCN* 5(4), 390–407.

Differential effects of semantic and identity priming in patients with left and right hemisphere lesions. Henik, Avishi, Dronkers, Nina F., Knight, Robert T., & Osimani, Alicia. (1993). *JOCN* 5(1), 45–55.

Dissociation of brain activity related to syntactic and semantic aspects of language. Munte, Thomas F., Heinze, Hans-Jochen, & Mangun, George R. (1993). *JOCN* 5(3), 335–344.

Distributed representation of limbmotor programs in arrays of adjustable pattern generators. Berthier, N. E., Singh, S. P., Barto, A. G., & Houk, J. C. (1993). *JOCN* 5(1), 56–78.

Egocentric spatial representation in early vision. Pouget, Alexandre, Fisher, Stephen A., & Sejnowski, Terrence J. (1993). *JOCN* 5(2), 150–161.

Event-related brain potentials while enountering semantic and syntactic constraint violations. Rosler, Frank, Friederici, Angela, Putz, Peter, & Hahne, Anja. (1993). *JOCN* 5(3), 345–362.

Express saccades and smooth pursuit eye movement function in schizophrenic, affective disorder, and normal subjects. Sereno, Anne B., & Holzman, Philip. (1993). *JOCN* 5(3), 303–316.

The human auditory sensory memory trace persists about 10 sec: Neuromagnetic evidence. Sams, Mikko, Hari, Riitta, Rif, Josi, & Knuutila, Jukka. (1993). *JOCN* 5(3), 363–370.

Image segmentation cues in motion processing: Implications for modularity in vision. Stoner, Gene R., & Albright, Thomas D. (1993). *JOCN* 5(2), 129–149.

Improved localization of cortical activity by combining EEG and MEG with MRI cortical surface reconstruction: A linear approach. Dale, Anders M., & Sereno, Martin I. (1993). *JOCN* 5(2), 162–176.

Language acquisition and cerebral specialization in 20-month-old infants. Mills, Debra L., Coffey-Corina, Sharon A., & Neville, Helen J. (1993). *JOCN* 5(3), 317–334.

A neural network model of cortical activity during reaching. Ketner, Ronald, Marcario, Joanne, & Port, Nicholas. (1993). *JOCN* 5(1), 14–33.

The neurobiology of sensory and language processing in language impaired children. Neville, Helen J., Coffey, Sharon A., Holcomb, Phillip J., & Tallal, Paula. (1993). *JOCN* 5(2), 235–253.

Neurophysiological manifestations of recollective experience during recognition memory judgments. Smith, Michael E. (1993). *JOCN* 5(1), 1–13.

Perseverative and semantic influences on visual object naming errors in optic aphasia: A connectionist account. Plaut, David C., & Shallice, Tim. (1993). *JOCN* 5(1), 89–117.

Plurality of visual mismatch potentials in a reptile. Prechtl, James C., & Bullock, Theordore H. (1993). *JOCN* 5(2), 177–187.

Preattentive processes guide visual search: Evidence from patients with unilateral visual neglect. Grabowecky, Marcia, Robertson, Lynn C., & Treisman, Anne. (1993). *JOCN* 5(3), 288–302.

The processing nature of the N400: Evidence from masked priming. Brown, Colin, & Hagoort, Peter. (1993). *JOCN* 5(1), 34–44.

Review of B. E. Stein and M. A. Meredith, "The Merging of the Senses." Fendrich, Robert. (1993). *JOCN* 5(2), 373–374.

The role of repetition and associative interference in new semantic learning in amnesia: A case experience. Hayman, Gordon C. A., Macdonald, Carol A., & Tulving, Endel. (1993). *JOCN* 5(4), 375–389.

Similarity of structure and the profile of visual recognition defects: A comment on Gaffan and Heywood. Damasio, Antonio, Tranel, Daniel, & Damasio, Hanna. (1993). *JOCN* 5(3), 371–372.

A self-organizing neural model of motor equivalent reaching and tool use by a multijoint arm. Bullock, Daniel, Grossberg, Stephen, & Guenther, Frank H. (1993). *JOCN* 5(4), 408–435.

A spurious category-specific visual agnosia for living things in normal human and nonhuman primates. Gaffan, David, & Heywood, Charles A. (1993). *JOCN* 5(1), 118–128.

Visual extinction and stimulus repetition. Baylis, Gordon C., Driver, Jon, & Rafal, Robert D. (1993). *JOCN* 5(4), 453–466.

Visual mental imagery activates topographically organized visual cortex: PET investigations. Kosslyn, Stephen M., Alpert, Nathaniel M., Thompson, William L., Maljkovic, Vera, Weise, Steven B., Chabris, Christopher F., Hamilton, Sania E., Rauch, Scott L., & Buonanno, Ferdinando S. (1993). *JOCN* 5(3), 263–287.

Visual search for feature and conjunction targets with an attention deficit. Arguin, Martin, Joanette, Yves, & Cavanagh, Patrick. (1993). *JOCN* 5(4), 436–452.

VOLUME 5
AUTHOR INDEX

Alavi, Abass. Cognitive and physiological substrates of impaired sentence processing in Parkinson's disease. Grossman, Murray, Carvell, Susan, Gollomp, Stephen, Stern, Matthew B., Reivich, Martin, Morrison, Donald, Alavi, Abass, Hurtig, Howard I. (1993). *JOCN* 5(4), 480–498.

Rosler, Frank. Event-related brain potentials while enountering semantic and syntactic constraint violations. Rosler, Frank, Friederici, Angela, Putz, Peter, & Hahne, Anja. (1993). *JOCN* 5(3), 345–362.

Salamon, G. The cortical representation of speech. Mazoyer, B. M., Dehaene, S., Tzouio, N., Frak, V., Murayama, N., Cohen, L., Levrier, O., Salamon, G., Syrota, A., & Mehler, J. (1993). *JOCN* 5(4), 467–479.

Salmon, David P. An assessment of the semantic network in patients with Alzheimer's disease. Chan, Agnes S., Butters, Nelson, Paulsen, Jane S., Salmon, David P., Swenson, Michael R., & Maloney, Laurence T. (1993). *JOCN* 5(2), 254–261.

Sams, Mikko. The human auditory sensory memory trace persists about 10 sec: Neuromagnetic evidence. Sams, Mikko, Hari, Riitta, Rif, Josi, & Knuutila, Jukka. (1993). *JOCN* 5(3), 363–370.

Sejnowski, Terrence J. Egocentric spatial representation in early vision. Pouget, Alexandre, Fisher, Stephen A., & Sejnowski, Terrence J. (1993). *JOCN* 5(2), 150–161.

Sereno, Anne B. Express saccades and smooth pursuit eye movement function in schizophrenic, affective disorder, and normal subjects. Sereno, Anne B., & Holzman, Philip. (1993). *JOCN* 5(3), 303–316.

Sereno, Martin I. Improved localization of cortical activity by combining EEG and MEG with MRI cortical surface reconstruction: A linear approach. Dale, Anders M., & Sereno, Martin I. (1993). *JOCN* 5(2), 162–176.

Shallice, Tim. Perseverative and semantic influences on visual object naming errors in optic aphasia: A connectionist account. Plaut, David C., & Shallice, Tim. (1993). *JOCN* 5(1), 89–117.

Singh, S. P. Distributed representation of limbmotor programs in arrays of adjustable pattern generators. Berthier, N. E., Singh, S. P., Barto, A. G., & Houk, J. C. (1993). *JOCN* 5(1), 56–78.

Smith, Michael E. Neurophysiological manifestations of recollective experience during recognition memory judgments. Smith, Michael E. (1993). *JOCN* 5(1), 1–13.

Stern, Matthew B. Cognitive and physiological substrates of impaired sentence processing in Parkinson's disease. Grossman, Murray, Carvell, Susan, Gollomp, Stephen, Stern, Matthew B., Reivich, Martin, Morrison, Donald, Alavi, Abass, & Hurtig, Howard I. (1993). *JOCN* 5(4), 480–498.

Stoner, Gene R. Image segmentation cues in motion processing: Implications for modularity in vision. Stoner, Gene R., & Albright, Thomas D. (1993). *JOCN* 5(2), 129–149.

Swenson, Michael R. An assessment of the semantic network in patients with Alzheimer's disease. Chan, Agnes S., Butters, Nelson, Paulsen, Jane S., Salmon, David P., Swenson, Michael R., & Maloney, Laurence T. (1993). *JOCN* 5(2), 254–261.

Syrota, A. The cortical representation of speech. Mazoyer, B. M., Dehaene, S., Tzouio, N., Frak, V., Murayama, N., Cohen, L., Levrier, O., Salamon, G., Syrota, A., & Mehler, J. (1993). *JOCN* 5(4), 467–479.

Tallal, Paula. The neurobiology of sensory and language processing in language impaired children. Neville, Helen J., Coffey, Sharon A., Holcomb, Phillip J., & Tallal, Paula. (1993). *JOCN* 5(2), 235–253.

Thompson, William L. Visual mental imagery activates topographically organized visual cortex: PET investigations. Kosslyn, Stephen M., Alpert, Nathaniel M., Thompson, William L., Maljkovic, Vera, Weise, Steven B., Chabris, Christopher F., Hamilton, Sania E., Rauch, Scott L., & Buonanno, Ferdinando S. (1993). *JOCN* 5(3), 263–287.

Tranel, Daniel. The covert learning of affective valence does not require structures in hippocampal system of amygdala. Tranel, Daniel, & Damasio, Antonio. (1993). *JOCN* 5(1), 79–88.

Tranel, Daniel. Similarity of structure and the profile of visual recognition defects: A comment on Gaffan and Heywood. Damasio, Antonio, Tranel, Daniel, & Damasio, Hanna. (1993). *JOCN* 5(3), 371–372.

Treisman, Anne. Preattentive processes guide visual search: Evidence from patients with unilateral visual neglect. Grabowecky, Marcia, Robertson, Lynn C., & Treisman, Anne. (1993). *JOCN* 5(3), 288–302.

Tulving, Endel. The role of repetition and associative interference in new semantic learning in amnesia: A case experience. Hayman, Gordon C. A., Macdonald, Carol A., & Tulving, Endel. (1993). *JOCN* 5(4), 375–389.

Tzouio, N. The cortical representation of speech. Mazoyer, B. M., Dehaene, S., Tzouio, N., Frak, V., Murayama, N., Cohen, L., Levrier, O., Salamon, G., Syrota, A., & Mehler, J. (1993). *JOCN* 5(4), 467–479.

Weise, Steven B. Visual mental imagery activates topographically organized visual cortex: PET investigations. Kosslyn, Stephen M., Alpert, Nathaniel M., Thompson, William L., Maljkovic, Vera, Weise, Steven B., Chabris, Christopher F., Hamilton, Sania E., Rauch, Scott L., & Buonanno, Ferdinando S. (1993). *JOCN* 5(3), 263–287.

VOLUME 6
TITLE INDEX

Categorical versus coordinate spatial processing: Effects of blurring and hemispheric asymmetry. Cowin, Elizabeth L., & Hellige, Joseph B. (1994). *JOCN 6*(2), 156–165.

Coding of spatial information in the somatosensory system: Evidence from patients with neglect following parietal lobe damage. Moscovitch, Morris, & Behrmann, Marlene. (1994). *JOCN 6*(2), 151–155.

Cognitive bias, functional cortical geometry, and the frontal lobes: Laterality, sex, and handedness. Goldberg, Elkhonon, Podell, Kenneth, Harner, Richard, Lovell, Mark, & Riggio, Silvana. (1994). *JOCN 6*(3), 276–296.

Dissociation of motor hyperactivity and spatial memory deficits by selective hippocampal lesions in the neonatal rat. van Praag, Henrietta, Dreyfus, Cheryl F., & Black, Ira B. (1994). *JOCN 6*(4), 321–331.

Duration of EEG and MEG alpha suppression increases with angle in a mental rotation task. Michel, Christoph M., Kaufman, Lloyd, Williamson, Samuel J. (1994). *JOCN 6*(2), 139–150.

Endogenously generated and visually guided saccades after lesions of the human frontal eye fields. Henik, Avishai, Rafal, Robert, & Rhodes, Dell. (1994). *JOCN 6*(4), 400–411.

ERP evidence for a shifting attention deficit in patients with damage to the cerebellum. Akshoomoff, Natacha A., & Courchesne, Eric. (1994). *JOCN 6*(4), 388–399.

Event-related potential components reflect phonological and semantic processing of the terminal word of spoken sentences. Connolly, John F., & Phillips, Natalie A. (1994). *JOCN 6*(3), 256–266.

Global semantic expectancy and language comprehension. St. George, Marie, Mannes, Suzanne, & Hoffman, James E. (1994). *JOCN 6*(1), 70–83.

The impact of semantic memory loss on phonological representations. Patterson, Karalyn, Grahm, Naida, & Hodges, John R. (1994). *JOCN 6*(1), 57–69.

Independent attentional scanning in the separated hemispheres of split-brain patients. Luck, Steven J., Hillyard, Steven A., Mangun, George R., & Gazzaniga, Michael S. (1994). *JOCN 6*(1), 84–91.

Interview with Randy Gallistel. Gazzaniga, Michael S. (1994). *JOCN 6*(2), 174–179.

Language-related ERPs: Scalp distribution and modulation by word type and semantic processing. Nobre, Anna C., & McCarthy, Gregory. (1994). *JOCN 6*(3), 233–255.

Lateralization of categorical and coordinate spatial functions: A study of unilateral stroke patients. Laeng, Bruno. (1994). *JOCN 6*(3), 189–203.

Learning and maintaining saccadic accuracy: A model of brainstem-cerebellar interactions. Dean, Paul, Mayhew, John E., & Langdon, Pat. (1994). *JOCN 6*(2), 117–138.

Mechanisms of spatial attention: The relation of macrostructure to microstructure in parietal neglect. Cohen, Jonathan D., Romero, Richard D., Servan-Schriber, David, & Farah, Martha J. (1994). *JOCN 6*(4), 377–387.

A model of the learning of arm trajectories from spatial deviations. Jordan, Michael I., Flash, Tamar, & Arnon, Yoram. (1994). *JOCN 6*(4), 359–376.

Monitoring the visual world: Hemispheric asymmetries and subcortical processes in attention. Mangun, G. R., Luck, S. J., Plager, R., Loftus, W., Hillyard, S. A., Handy, T., Clark, V. P., & Gazzaniga, M. S. (1994). *JOCN 6*(3), 267–275.

The nature and limits of orientation and pattern processing supporting visuomotor control in a visual form agnosic. Goodale, M. A., Jakobson, L. S., Milner, A. D., Perrett, D. I., Benson, P. J., & Hietanen, J. K. (1994). *JOCN 6*(1), 46–56.

Neural representations for sensorimotor control. III: Learning a body-centered representation of a three-dimensional target position. Guenther, Frank H., Bullock, Daniel, Greve, Douglas, & Grossberg, Stephen. (1994). *JOCN 6*(4), 341–358.

Neurophysiological manifestations of phonological processing: Latency variation of a negative ERP component timelocked to phonological mismatch. Praamstra, Peter, Meyer, Antje S., & Levelt, Willem J. M. (1994). *JOCN 6*(3), 204–219.

Object-centered neglect in patients with unilateral neglect: Effects on the left-right coordinates of objects. Behrmann, Marlene, & Moscovitch, Morris. (1994). *JOCN 6*(1), 1–16.

On cognitive neuroscience: Interview of Stephen M. Kosslyn. Gazzaniga, Michael S. (1994). *JOCN 6*(3), 297–303.

On language: Interview of Steven Pinker. Gazzaniga, Michael S. (1994). *JOCN 6*(1), 92–97.

Parietal damage and narrow "spotlight" spatial attention. Townsend, Jeanne, & Courchense, Eric. (1994). *JOCN 6*(3), 220–232.

Responses of anterior superior temporal polysensory (STPa) neurons to "biological motion" stimuli. Oram, M. W., & Perrett, D. I. (1994). *JOCN 6*(2), 99–116.

Review of J. A. Meyer, H. L. Roitblat, & S. W. Wilson (Eds.), From Animals to Animats 2: Proceedings of the Second International Conference on Simulation of Adaptive Behavior. Grobstein, Paul. (1994). *JOCN 6*(2), 186–187.

Review of J. B. Hellige, A Review of Hemispheric Asymmetry: What's Right and What's Left. Robertson, Lynn C. (1994). *JOCN 6*(2), 183–185.

Review of J. R. Cronly-Dillon (Ed.), "Vision and Visual Dysfunction." Strok, David G. (1994). *JOCN 6*(2), 180–183.

Review of L. B. Smith and E. Thelen (Eds.), "A Dynamic Systems Approach to Development: Applications." Benedek, Gyorgy. (1994). *JOCN 6*(4), 412–413.

The role of the anterior attention system in semantic processing of both foveal and parafoveal words. Fuentes, Luis J., Carmona, Encarna, Agis, Inmaculada, & Catena, Andres. (1994). *JOCN 6*(1), 1–16.

Scene-specific memory for objects: A model of episodic memory impairment in monkeys with fornix transection. Gaffan, David. (1994). *JOCN 6*(4), 305–320.

Summation priming and coarse semantic coding in the right hemisphere. Beeman, Mark, Friedman, Rhonda B., Grafman, Jordan, Perez, Enrique, Diamond, Sherri, & Beadle Lindsay, Miriam. (1994). *JOCN 6*(1), 26–45.

Temporal integration in sensorimotor synchronization. Mates, Jiri, Muller, Ulrike, Radil, Thomas, & Poppel, Ernst. (1994). *JOCN 6*(4), 332–340.

Visual attention in children with perinatal brain injury: Asymmetric effects of bilateral lesions. Craft, Suzanne, White, Desiree A., Park, T. S., & Figel, Gary. (1994). *JOCN 6*(2), 165–173.
